# FEATURE MATRIX
## VMS SOLUTIONS

# DIGIFORT products

are carefully designed to offer the highest quality video monitoring and management software, exceeding market standards and expectations, while providing tailor-made features for a wide range of applications. Today it has more than 240 manufacturers worldwide and over 6500 models of devices integrated to the system, complete alarm system and automation, reading automobile license plate, intelligent module of image analysis, integration with any access control system, biometrics, CRM, ERP, city management software, among others.

Digifort has created the Digifort Mobile Client, an application developed in java platform for mobile devices like tablets and smartphones (Android and IOs) that allows the visualization and playback of the images of IP cameras and encoders, ideal solution for companies and Homes, where at any time the user can view and control cameras, PTZ, activate presets or trigger events from any location, via Digifort Server, being a complement, not an additional module, not requiring the use of a license, Already available from version 7.

| **digifort** EXPLORER | **digifort** STANDARD | **digifort** PROFESSIONAL | **digifort** ENTERPRISE |
|---|---|---|---|
| **DGF EXPLORER** | **DGF STANDARD** | **DGF PROFESSIONAL** | **DGF ENTERPRISE** |
| Used in small condominiums, offices, residences, small shops and small businesses in general. A reliable solution with essential features, having as main characteristics the recording and monitoring of images of IP and / or analog cameras connected through DVRs, NVRs or Video Encoders. | Recommended for customers who need an application for up to 32 cameras at an affordable cost and with some more advanced features such as Integrated Web Server, with this edition you can control your PTZ cameras through the mouse, providing the operator with just the click on the Control your features. | For the medium and large client that needs features such as PTZ by joystick, synoptic map, up to 16 unique user profiles and unlimited connections, web server, camera view through the cell phone, integration with optional Digifort modules, Digifort Professional account also with integration Of the Alarm and Automation modules and Digifort Evidence, giving the customer the complete monitoring, alarm and automation solution. | Recommended for medium and large users I need a system with unlimited tools and functionality, alarm solutions, access control and automation. In addition to the features available in other versions of the software, this edition has the possibility of integration of alarm and automation modules, unlimited number of cameras, IP filters and server status reports. |

# System Resources Comparison

## Architecture and Security

| Resources | Explorer | Standard | Professional | Enterprise |
|---|---|---|---|---|
| **System Architecture** | Client/Server | Client/Server | Client/Server | Client/Server |
| **Number of cameras** | 4 to 16 (By License Packs) | 4 to 32 (By License Packs) | 8 to 64 (By License Packs) | 8 to Unlimited (By Packs) |
| **Supports expansion of cameras via packs (Packs)** | Yes (Up to 16) | Yes (Up to 32) | Yes (Up to 64) | Yes (Unlimited) |
| **Speed of recording and live monitoring** | Up to 60 FPS per camera | Up to 60 FPS per camera | Up to 60 FPS per camera | Up to 60 FPS per camera |
| **Works with IP Cameras and Video Servers** | Yes | Yes | Yes | Yes |
| **Works with alarm boards** | No | Yes | Yes | Yes |
| **Number of supported Alarm Boards** | 0 | 1 (By License Packs) | 1 a 6 (By License Packs) | 1 to Unlimited (By License Packs) |
| **Allows simultaneous operations (Multi-tasking)** | Yes | Yes | Yes | Yes |
| **Suportts Remote access to server** | Yes | Yes | Yes | Yes |
| **Supports multi-processor (optimizes tasks dividing the processing among the processors)** | Yes | Yes | Yes | Yes |
| **Has IP Filters** | No | Yes | Yes | Yes |
| **Has server activity log** | Yes | Yes | Yes | Yes |
| **Has events log** | Yes | Yes | Yes | Yes |
| **Supports DNS** | Yes | Yes | Yes | Yes |
| **Platform** | Windows 7 / 8 / 10, 32 & 64 Bits | Windows 7 / 8 / 10, 32 & 64 Bits | Windows 7 / 8 / 10, 32 & 64 Bits | Windows 7 / 8 / 10, 32 & 64 Bits |
| **Has complete users rights system** | Yes | Yes | Yes | Yes |
| **Full control on Surveillance Client Features for each operator** | Yes | Yes | Yes | Yes |
| **Limit of connections to server** | Unlimited | Unlimited | Unlimited | Unlimited |
| **Supported Image Resolution** | Any resolution (depends on the camera) | Any resolution (depends on the camera) | Any resolution (depends on the camera) | Any resolution (depends on the camera) |
| **Privacy mask** | Yes | Yes | Yes | Yes |
| **Permits viewing video by timeline** | Yes | Yes | Yes | Yes |
| **Has control for filters and effects on the image** | No | No | Yes | Yes |
| **Has user profile for live surveillance** | Yes | Yes | Yes | Yes |
| **Supports Multi-Users** | Yes (Up to 4 different users) | Yes (Up to 8 different users) | Yes (Up to 16 different users) | Yes (Unlimited) |
| **Integration with Digifort Evidence** | No | No | Yes | Yes |
| **Integration with Active Directory domain** | No | No | Yes | Yes |
| **Has Master / Slave Architecture** | No | No | Yes | Yes |
| **Enables Biometric Authentication by Digifort - BioPass** | No | Yes | Yes | Yes |
| **It features a privacy mode resource.** | No | Yes | Yes | Yes |

| | | | | |
|---|---|---|---|---|
| **It features an identification of ownership resource.** | No | Yes | Yes | Yes |
| **It allows audit records to be exported.** | No | Yes | Yes | Yes |
| **Server Platform** | Microsoft Windows Server 2008 R2 / 2012 / 2016 / 2019, 32 & 64bits | Microsoft Windows Server 2008 R2 / 2012 / 2016 / 2019, 32 & 64bits | Microsoft Windows Server 2008 R2 / 2012 / 2016 / 2019, 32 & 64bits | Microsoft Windows Server 2008 R2 / 2012 / 2016 / 2019, 32 & 64bits |
| **Multi Streaming Cameras Support** | Yes | Yes | Yes | Yes |
| **Compatible with Unicode characters** | No | No | Yes | Yes |
| **Automatic update of changes carried out in the system** | Yes | Yes | Yes | Yes |
| **Compatible with Onvif version 1.02 or higher and Onvif Profile-S** | Yes | Yes | Yes | Yes |
| **It supports TCP and UDP (Unicast and Multicast) protocols.** | Yes | Yes | Yes | Yes |
| **It enables the distribution of videos through multicast on demand** | Yes | Yes | Yes | Yes |
| **It enables sending e-mails via SMTP with SSL authentication** | Yes | Yes | Yes | Yes |
| **It features an automatic services manager** | Yes | Yes | Yes | Yes |
| **It supports bidirectional and unidirectional audio.** | Yes | Yes | Yes | Yes |
| **It features complete support for the dewarping of panamorphic lenses** | Yes | Yes | Yes | Yes |
| **It features a RTSP integrated media server** | Yes | Yes | Yes | Yes |
| **It features a Database management module.** | Yes | Yes | Yes | Yes |
| **It enables the control of the login schedule and system use by the users** | No | Yes | Yes | Yes |
| **It features a full resource for bookmarking for full event scheduling** | No | No | Yes | Yes |
| **It enables edge recording.** | No | No | No | Yes |
| **Stored passwords with encryption** | Yes | Yes | Yes | Yes |
| **It supports notification via HTTP** | No | Yes | Yes | Yes |
| **It features support for HTTPS and SSL.** | Yes | Yes | Yes | Yes |
| **It enables the integration with any system in the market** | Yes | Yes | Yes | Yes |

## Video Recording

| Resources | Explorer | Standard | Professional | Enterprise |
|---|---|---|---|---|
| **Supports recording by movement detection** | Yes | Yes | Yes | Yes |
| **Recording by movement allows definition of various areas sensitive to movement** | Yes | Yes | Yes | Yes |
| **Supports recording by events** | No | Yes | Yes | Yes |
| **Supports buffer for pre/post alarm** | Yes (Up to 5 seconds) | Yes (Up to 10 seconds) | Yes (Up to 60 seconds) | Yes (Up to 60 seconds) |
| **Has system of digital certificate** | Yes | Yes | Yes | Yes |
| **Supports filing of recordings** | No | No | No | Yes |
| **High-performance Database** | Yes | Yes | Yes | Yes |
| **Has automatic disk management system** | Yes | Yes | Yes | Yes |
| **Assignment of Hard Disk limits for the automatic disk management system** | Yes | Yes | Yes | Yes |
| **Allows image recording in file servers (by network)** | Yes | Yes | Yes | Yes |
| **Limit or recordings per day** | No limit | No limit | No limit | No limit |
| **Tool for testing the motion detection feature** | Yes | Yes | Yes | Yes |
| **It enables selecting unlimited areas sensitive to motion** | Yes | Yes | Yes | Yes |
| **It enables Failover and Failback configuration** | Yes | Yes | Yes | Yes |
| **It enables increasing the frame rate whenever motion is detected on the images** | No | No | Yes | Yes |
| **It works with recordings in the JPEG, MPEG4, H.263, H.264 and H.265 compressions.** | Yes | Yes | Yes | Yes |
| **It features reports with originality codes.** | No | No | No | Yes |
| **It enables the capture, recording, and playback of computer screens** | Yes | Yes | Yes | Yes |
| **It enables audio recording on the formats: PCM, G.711, G.726 and AAC.** | Yes | Yes | Yes | Yes |
| **It enables recording of images generated by 360 degreepanamorphic lenses.** | Yes | Yes | Yes | Yes |

## Live Monitoring

| Resources | Explorer | Standard | Professional | Enterprise |
|---|---|---|---|---|
| **Number of cameras simultaneously** | 16 | 32 | 64 | Unlimited |
| **Supports creation of different camera positions** | Yes | Yes | Yes | Yes |
| **Has automatic view dimensioning** | No | Yes | Yes | Yes |
| **Supports Multi-Monitor** | Yes (Two) | Yes (Two) | Yes (Four) | Yes (Eight) |
| **Allows live visualization of images of various servers on the same screen** | Yes | Yes | Yes | Yes |
| **Has control for filters and effects on the image** | No | No | Yes | Yes |
| **Has Image Relay Feature** | Yes | Yes | Yes | Yes |
| **Supports live Motion Detection** | Yes | Yes | Yes | Yes |
| **Has a tool for camera short-cut** | Yes | Yes | Yes | Yes |
| **Has screenshot tool** | No | Yes | Yes | Yes |

| View styles for live monitoring | 7 Native | 7 Native with support for creation of 2 new | 7 Native with support for creation | 7 Native with support for creation |
|---|---|---|---|---|
| **Has view for image sequencing** | No | Yes | Yes | Yes |
| **Supports bilinear resizing** | Yes | Yes | Yes | Yes |
| **Allows the execution of emergency local recording in Surveillance Client** | No | Yes | Yes | Yes |
| **Media profile changing** | No | Yes | Yes | Yes |
| **PTZ lock by priority** | No | No | Yes | Yes |
| **Virtual Keyboard Tool** | Yes | Yes | Yes | Yes |
| **Enables the creation of presets in the Surveillance Client** | No | Yes | Yes | Yes |
| **Enables automatic updating of Surveillance Client** | Yes | Yes | Yes | Yes |
| **Virtual Matrix** | No | Yes, up to 1 monitor | Yes | Yes |
| **Has support to Virtual PTZ in live view** | Yes | Yes | Yes | Yes |
| **Allows creation of synoptic map** | No | Yes (up to 2 screens) | Yes (10 maps) | Yes |
| **It features a public view resource.** | No | No | Yes | Yes |
| **It features a limit for simultaneous camera access.** | No | Yes | Yes | Yes |
| **It features an object filter on the surveillance client.** | No | Yes | Yes | Yes |
| **Dynamic Update of Views on the surveillance client.** | Yes | Yes | Yes | Yes |
| **Customization of objects in the surveillance client.** | Yes | Yes | Yes | Yes |
| **It enables the remote operation of those computers captured on the network.** | Yes | Yes | Yes | Yes |
| **It enables increasing the frame rate of a given surveillance camera, whenever it is selected** | No | Yes | Yes | Yes |
| **It enables viewing information on camera status on the surveillance client** | Yes | Yes | Yes | Yes |
| **It enables to limit simultaneous access to cameras.** | No | No | Yes | Yes |
| **It enables the user to configure the display mode of the names and objects** | Yes | Yes | Yes | Yes |
| **It enables live and sectorized audio surveillance.** | Yes | Yes | Yes | Yes |
| **It enables the surveillance of images generated by panamorphic lenses.** | Yes | Yes | Yes | Yes |
| **It allows to create maps with objects from multiple servers.** | No | Yes | Yes | Yes |
| **It allows to import static images of maps from Google Maps** | No | Yes | Yes | Yes |
| **It has a self-populate and self-adjust option in the synoptic maps** | No | Yes | Yes | Yes |
| **It allows automatic pop up closing** | Yes | Yes | Yes | Yes |
| **It features a limit for simultaneous alarm windows** | No | Yes | Yes | Yes |
| **It features automatic repositioning of alarm windows on monitors** | Yes | Yes | Yes | Yes |
| **It features a configurable video Buffer for fixed and PTZ cameras** | Yes | Yes | Yes | Yes |
| **It supports resolutions greater than 96DPI** | Yes | Yes | Yes | Yes |

# Video reproduction, export and look-Up

| Resources | Explorer | Standard | Professional | Enterprise |
|---|---|---|---|---|
| **Reproduces video by date and time range** | Yes | Yes | Yes | Yes |
| **Video Export Formats** | DigiFort (Occurrence CD), .avi | DigiFort (Occurrence CD), .avi | DigiFort (Occurrence CD), .avi | DigiFort (Occurrence CD), .avi |
| **Allows saving an image during video reproduction** | Yes | Yes | Yes | Yes |
| **Reproduces video by fixed time range** | Yes | Yes | Yes | Yes |
| **Advanced search by motion detection** | No | Yes | Yes | Yes |
| **Has support for digital zoom during video reproduction** | Yes | Yes | Yes | Yes |
| **Supports deinterlacing of images** | No | No | No | Yes |
| **Allows printing of an image during reprodution of the video with event description** | No | Yes | Yes | Yes |
| **Reproducion of cameras simultaneously** | 16 | 32 | 64 | Unlimited |
| **Exports of cameras simultaneously** | Yes | Yes | Yes | Yes |
| **Allows media playback on surveillance client** | Yes | Yes | Yes | Yes |
| **It allows a text watermark to be added to exported images.** | No | Yes | Yes | Yes |
| **Multi-thread processing for video playback** | No | Yes | Yes | Yes |
| **It enables the selection of a default monitor to open the Media Player.** | Yes | Yes | Yes | Yes |
| **It enables the retrieval of recorded images by using a date and time range** | Yes | Yes | Yes | Yes |
| **Simultaneous video playback on the surveillance client** | 16 | 32 | 64 | Unlimited |
| **It features a recorded image timeline** | Yes | Yes | Yes | Yes |
| **It enables to zoom different areas of the screen** | Yes | Yes | Yes | Yes |
| **It enables instant playback of videos from events.** | No | Yes | Yes | Yes |
| **It enables to limit video playback and export** | Yes | Yes | Yes | Yes |
| **It enables to add a watermark per user for identification of image ownership.** | No | Yes | Yes | Yes |
| **It enables video playback acceleration** | Yes | Yes | Yes | Yes |
| **It enables image resizing in the video player** | Yes | Yes | Yes | Yes |
| **It enables synchronized video and audio playback.** | Yes | Yes | Yes | Yes |
| **It enables the playback of images recorded through 360 degreepanamorphic lenses.** | Yes | Yes | Yes | Yes |
| **It enables the choice of playback range of the recorded video** | Yes | Yes | Yes | Yes |
| **It enables to resize the video during export to AVI** | Yes | Yes | Yes | Yes |
| **It enables to advance and rewind the video** | Yes | Yes | Yes | Yes |
| **It enables to fast forward and rewind the video to the next bookmark.** | No | No | Yes | Yes |

| | | | | |
|---|---|---|---|---|
| **It enables to search, by the code of originality, an image generated in a report.** | No | No | No | Yes |
| **It features audited media export** | Yes | Yes | Yes | Yes |
| **It enables the playback of events** | No | Yes | Yes | Yes |
| **It features quick playback on alarm windows** | No | Yes | Yes | Yes |
| **It allows password-protected video export** | Yes | Yes | Yes | Yes |
| **It allows printing images with the zoom feature applied** | Yes | Yes | Yes | Yes |
| **It allows image printing from multiple cameras** | Yes | Yes | Yes | Yes |
| **It features a quick snapshot option for cameras** | Yes | Yes | Yes | Yes |
| **It features accelerated motion search** | No | Yes | Yes | Yes |

## Support for PTZ

| **Resources** | **Explorer** | **Standard** | **Professional** | **Enterprise** |
|---|---|---|---|---|
| **Supports PTZ** | Yes | Yes | Yes | Yes |
| **Suportts PTZ by "Click and Centralize"** | No | Yes | Yes | Yes |
| **Supports PTZ by joystick** | No | Yes | Yes | Yes |
| **Supports PTZ by visual joystick** | No | Yes | Yes | Yes |
| **Advanced settings for joystick** | No | Yes | Yes | Yes |
| **Surveillance PTZ analog cameras support patterns** | No | Yes | Yes | Yes |
| **It has control over the OSD (On Screen Display) for analog cameras** | No | Yes | Yes | Yes |
| **PTZ surveillance supports analogical camera patterns** | No | Yes | Yes | Yes |
| **Supports PTZ Patrol** | No | Yes | Yes | Yes |
| **Supports Presets** | No | Yes (Up to 16 presets for camera) | Yes (number of presets unlimited) | Yes (number of presets unlimited) |
| **Supports advanced PTZ** | No | Yes | Yes | Yes |
| **Supports Digital PTZ** | Yes | Yes | Yes | Yes |
| **It enables the scheduling or manual activation of PTZ Patrol** | No | Yes | Yes | Yes |
| **It enables to activate PTZ surveillance manually or on a schedule** | No | Yes | Yes | Yes |
| **It features Virtual PTZ for fixed and mobile cameras.** | No | Yes | Yes | Yes |
| **It enables viewing the record of the last user who moved the camera using PTZ.** | Yes | Yes | Yes | Yes |
| **It automatically enables and disables privacy mode when using PTZ** | No | No | Yes | Yes |
| **It automatically enables and disables privacy mode when using PTZ Surveillance** | No | No | Yes | Yes |

## Events Support

| Resources | Explorer | Standard | Professional | Enterprise |
|---|---|---|---|---|
| Supports alarm input and output | No | Yes | Yes | Yes |
| Triggers an event upon Motion Detection | No | Yes | Yes | Yes |
| Generates an event upon recording failure | Yes | Yes | Yes | Yes |
| Generates an event if a camera is out of order | Yes | Yes | Yes | Yes |
| Has manual events | No | No | Yes | Yes |
| Has timer events | No | No | Yes | Yes |
| Supports the creation of multiple contact groups for receiving e-mail and SMS | Yes | Yes | Yes | Yes |
| Sends e-mail or SMS in case of event | Yes | Yes | Yes | Yes |
| Opens popup with camera images in case of event | No | Yes | Yes | Yes |
| Sounds alarm in case of an event | Yes | Yes | Yes | Yes |
| Sends an instant message to operator in case of event | Yes | Yes | Yes | Yes |
| Call specific PTZ presets in case of events | No | Yes | Yes | Yes |
| Activates alarm outputs in case of event | No | Yes | Yes | Yes |
| Sheduled Events | No | No | Yes | Yes |
| It allows Event reports to be exported. | No | Yes | Yes | Yes |
| Supports Global Events | No | Yes (Up to 4 events) | Yes (Up to 24 events) | Yes (Unlimited) |
| Audio level detection | No | Yes | Yes | Yes |
| Complete system of alarms and events | No | Yes | Yes | Yes |
| It enables Event scheduling | No | Yes | Yes | Yes |
| It enables the triggering of a camera alarm to start recording and/or image transmission | No | Yes | Yes | Yes |
| It features directed alarm events | No | Yes | Yes | Yes |
| It enables motion detection processed directly by the cameras | No | Yes | Yes | Yes |
| Event notifications through HTTP calls | No | Yes | Yes | Yes |
| Alternative video profile for motion detection on the server. | No | Yes | Yes | Yes |
| It enables searching the events database | No | Yes | Yes | Yes |
| It enables to attach an image from any camera to be sent via e-mail in the detection of an event | No | Yes | Yes | Yes |
| Video playback within the alarm pop up. | Yes | Yes | Yes | Yes |
| It allows real-time viewing of Global and Manual events status. | No | Yes | Yes | Yes |
| It features connection restore | Yes | Yes | Yes | Yes |

## Programming

| Resources | Explorer | Standard | Professional | Enterprise |
|---|---|---|---|---|
| Has programming of image recording | No | Yes | Yes | Yes |
| Has programming of recognition of external events | No | No | Yes | Yes |
| Has programming of alarm actions | No | Yes | Yes | Yes |

## Management

| Resources | Explorer | Standard | Professional | Enterprise |
|---|---|---|---|---|
| Sends report of functioning of the server | No | No | Yes | Yes |
| Allows applying configurations to a set of cameras simultaneously | Yes | Yes | Yes | Yes |
| Has server monitoring through graphics | Yes | Yes | Yes | Yes |
| Has calculator for storage sizing | Yes | Yes | Yes | Yes |
| User groups | Yes | Yes | Yes | Yes |
| Allows the location of the cameras and automatic registration through UPnP | Yes | Yes | Yes | Yes |
| Dynamic real time configuration<br><br>All settings made are saved at the time of its configuration and replicated to all cameras affected in this configuration without restarting the system. | Yes | Yes | Yes | Yes |
| It enables the automatic location of cameras that use the ONVIF protocol. | Yes | Yes | Yes | Yes |
| It features manual or automatic system configuration Backup. | Yes | Yes | Yes | Yes |
| Automatic location of recording servers on the local network | Yes | Yes | Yes | Yes |
| It features an audit system for user actions and server connections | Yes | Yes | Yes | Yes |
| Information of camera disconnection | Yes | Yes | Yes | Yes |
| Simultaneous user access limit | No | Yes | Yes | Yes |
| Export format for reports and graphs | No | Yes | Yes | Yes |
| It enables the logo on reports to be changed | No | Yes | Yes | Yes |
| It enables, upon registering cameras, the selection of columns for improved object identification | Yes | Yes | Yes | Yes |
| It enables to import any object from other Digifort servers | Yes | Yes | Yes | Yes |
| It enables to export the registry screens from objects from the system's administration client | Yes | Yes | Yes | Yes |
| It blocks access to the system after x invalid attempts | Yes | Yes | Yes | Yes |
| It displays the name of the operator who is connected to the surveillance client | Yes | Yes | Yes | Yes |
| It enables the configuration of the audio buffer | Yes | Yes | Yes | Yes |
| Permite o corte de imagens (CROP) | No | Yes | Yes | Yes |
| It enables the authorized user to receive all controls for system operation via web | Yes | Yes | Yes | Yes |
| It features a device failure report | Yes | Yes | Yes | Yes |
| It allows the requisition of multiple Event reports | No | Yes | Yes | Yes |
| It features a summary with server disk usage graphs | Yes | Yes | Yes | Yes |
| It allows to specify camera coordinates (latitude/longitude) | Yes | Yes | Yes | Yes |
| It allows searches by keyword in audits | No | Yes | Yes | Yes |
| It features a tools for ping testing devices | No | Yes | Yes | Yes |

## Web Server

| Resources | Explorer | Standard | Professional | Enterprise |
|---|---|---|---|---|
| Has built-in web server | Yes | Yes | Yes | Yes |
| It enables the configuration of a standard directory for media and photo export in the surveillance | Yes | Yes | Yes | Yes |

# Video Analytics

| Resources | Explorer | Standard | Professional | Enterprise |
|---|---|---|---|---|
| **Supports video analytics features** | No | Yes (By License Packs) | Yes (By License Packs) | Yes (By License Packs) |
| **Native support for bundled analytics on cameras.** | No | Yes | Yes | Yes |
| **It supports video analytics embedded in cameras via HTTP notification** | No | Yes | Yes | Yes |

# License Plate Recognition – LPR

| Resources | Explorer | Standard | Professional | Enterprise |
|---|---|---|---|---|
| **Supports Vehicle Licence Plate Recognition Module (LPR)** | No | Yes | Yes | Yes |
| **It features an Edge licensing system for LPR** | No | Yes (through licensing) | Yes (through licensing) | Yes (through licensing) |
| **It features alarm action for unregistered license plates** | No | Yes | Yes | Yes |

# Mobile Device Support

| Resources | Explorer | Standard | Professional | Enterprise |
|---|---|---|---|---|
| **It enables viewing images via cell phone or from any compatible mobile device** | Yes | Yes | Yes | Yes |
| **It enables connections to multiple servers.** | Yes | Yes | Yes | Yes |
| **It enables viewing cameras individually.** | Yes | Yes | Yes | Yes |
| **It enables saving a Screenshot (photo) of the image on the mobile device.** | Yes | Yes | Yes | Yes |
| **It enables viewing the image in full screen or in mosaics.** | Yes | Yes | Yes | Yes |
| **It enables PTZ control.** | Yes | Yes | Yes | Yes |
| **It enables the use of camera presets** | Yes | Yes | Yes | Yes |
| **It enables display configuration by Resolution, Image Quality and Frames per Second (FPS).** | Yes | Yes | Yes | Yes |
| **It displays the status of Used Bandwidth in KBytes.** | Yes | Yes | Yes | Yes |
| **It enables the activation of alarms (Turn on Lamps, Trigger a siren, Ppen and Close gates, etc.)** | Yes | Yes | Yes | Yes |
| **It enables the use of your cell phone camera, integrated to the system** | Yes | Yes | Yes | Yes |
| **It manages media profile exclusively for mobile devices** | Yes | Yes | Yes | Yes |
| **It enables operation via virtual matrix** | No | Yes, up to 1 monitor | Yes | Yes |
